

## Order Will Delay Shortcut Plowing In Heavy Storms

Richard Higgins, president of the Truckee Donner Chamber of Commerce, is in receipt of a public notice issued by the Placer County Department of Public Works, announcing that snow plowing on the Truckee shortcut will be taken off the high priority list.

The notice was forwarded to Higgins by Fred Schultz, manager of the Lake Tahoe Sierra Chamber of Commerce and will be discussed at the next meeting of the local chamber next Wednesday, Higgins said.

The notice says:  
The heavy storms this year have made it increasingly difficult to keep County Road P-151 (Truckee Shortcut) open. Reports indicate that very few people are using this road during heavy storms, whereas many people are in need of snow removal work in the more concentrated areas at Lake Tahoe. Alternate routes are being kept open for travel.

This office thereby wishes to establish the following policy, effective immediately. No attempt will be made to maintain road P-151 by county forces in the event of heavy storms until snow removal operations are completed in the more populated areas. When this has been accomplished the county crews will then reopen road P-151.

The cooperation and understanding by all during this period will be sincerely appreciated.

The notice was issued by Telford V. Stradley, director of the department.

## Neugebauer Will Seek Judge Post

NORTH TAHOE—Jack Neugebauer, manager of the Broadway Theater at Kings Beach and a resident of this area for the past 15 years, this week announced that he would be a write-in candidate for the office of judge of the Tahoe Judicial District Court at the June 5 primary election.

Neugebauer has been a resident of Kings Beach for nearly two years and qualified for the position he seeks through state examinations last year when appointments were being considered to fill the unexpired term of the late Harry Charrison.

Neugebauer is married and they have three sons, Jerry, Monte and Mark, all attending school at Kings Beach.

No one filed for the office prior to March 2, the deadline, and so the selection will be made by a write-in ballot, the other announced candidate being incumbent, Robert Fugazi.

## Dog Owners Are Warned As Packs Attack Deer Here

Despite the fact there is considerable snow still on the ground, deer are making their way back into this area.

And with their coming, Game Warden Charles Spillner declared, dog packs are forming throughout the community and at least two deer have already been mutilated by the dogs.

The warden urged all dog owners to keep their animals at home to prevent this wanton slaughter. It has been pointed out that once a dog starts killing deer, it seldom stops until it is destroyed. It is also quite possible that this killing instinct will not stop with deer and other family pets and even children are endangered.

## Violations Cited As Renegotiation At Squaw Urged

A resolution urging the renegotiation of the controversial concessionaire agreements at Squaw Valley State Park to assure the state more revenues was introduced last week in the state assembly.

Chairman of the joint legislative audit committee, Glenn E. Coolidge of Felton, submitted the resolution following recommendations his committee made earlier in the week.

The committee submitted a list of some three dozen contract violations reportedly committed by the Squaw Valley Improvement Company.

"Principal violations include lack of maintenance and cleanliness, advertising without approval, improvements without approval, etc.," Coolidge said. "In addition, dog sled rides, sleigh rides, hay wagon rides, garage operations, movie showings, dances and swimming events have been held without approval and without a full financial accounting to the state."

Coolidge's committee also found that the firm owed the state \$7,044. Meantime the state park commission, meeting in Sonoma, was told that Squaw Valley's Alex Cushing has reached a compromise with the state department of finance in a dispute over use of his ski facilities during the 1960 Winter Olympics.

Cushing had sought \$80,000 from the finance department, but has agreed to accept \$31,000, the commission was told. These funds will then be turned over by Cushing to the division of beaches and parks together with \$16,000 he owes the state under his present ski-tow concession agreement.

## Prospect Dim For Donner Opening

Although Donner Lake will be open for fishing March 31, prospects are dim because of the fact the lake is covered with ice up to three feet thick in some places. Game Warden Charles Spillner warned that it is illegal to fish through the ice and while there may be some shore fishing, he estimated that it would be the middle of April before boats can navigate the lake.

This is the first time in many years that the lake has been frozen over this late in the season.

As a result of their win, the Nevada skiers also claimed this year's Governor's Trophy. Nevada won both the slalom and downhill held at Donner Ski Ranch Saturday while Chico won both Nordic events, with Nevada placing second.

## Traffic Decline Is Noted In February

For the first time this winter, the Truckee quarantine station dropped out of first place as a port of entry into California, with Yermo the only station to exceed Truckee.

The monthly report from the state department of agriculture shows 58,679 cars, 3,823 trucks and 849 buses, with 169,608 passengers passed through the local station in February, compared to the 82,024 cars at Yermo.

The local count was approximately 5,000 over the number of cars checked in February, 1961, but was nearly 9,000 less than the number checked during January, the report shows.

Meyers on Highway 50, showed 5,979 cars, 130 trucks and 43 buses with a passenger total of 18,087.

The Capitol News Service reports that passengers in automobiles passing California's border checking station dropped below the million mark during February for the first time in many months but still were up 26 per cent from a year earlier.

## Study Continues To Determine If Oil Damaged Fish

It may be several weeks before the full extent of the damage to fish life in Donner Lake caused by between 13,000 and 18,000 gallons of diesel fuel being accidentally dumped into the water can be determined, although the loss is not expected to be great, as the oil is being confined, as much as possible, to a small area.

The pollution was caused early Friday morning when the contents of two 10,000-gallon storage tanks on a highway project above the west end of Donner escaped through a broken connection pipe and drained down a creek entering the lake just east of Donner Lake Lodge.

This area unfortunately was where the Donner Lake Utility Company obtained its domestic water for some 100 homes in the vicinity and the service mains and lines were filled with the toxic fluid. Area Sanitarian Richard Walker immediately notified all the home owners to stop using the water until the oil was removed. Fresh water was run through the lines and within 48 hours, most of the contamination was eliminated from the water supply.

Auxiliary lines were then placed in the lake where there was no danger of further contamination and the service restored.

Dr. W. W. White of the Nevada health department arrived on the scene to urge that the gates from Donner be closed to prevent the oil from going down the Truckee river to the Reno water supply.

Inspector Kenneth Hooker and Captain Hilton Bergstrom of the fish and game department joined Warden Charles Spillner, of Truckee to make a survey of the fish situation in the lake.

At first it was believed that pumping would be the best solution and within an hour H. G. Locher, chairman of the Nevada County Board of Supervisors, had obtained a permit to use \$1,000 to pay for the pumping.

This method was discarded in preference to burning the oil off the water and with the cooperation of the motel owners and with the Donner Lake Volunteer Fire Department standing by, the oil was ignited, causing a huge blaze some 10 by 30 feet on the lake and sending flames more than 50 feet into the air.

It is believed that the burning eliminated most of the oil but Warden Spillner said test holes were drilled across the lake and it was revealed the oil had spread to the south side. Continuing tests will show how far toward the mouth of Donner Creek the fuel has extended. These tests were being made by Ray Dunham, pollution expert for the department of fish and game and Spillner. Burning also continued as the fuel continued to find its way into the water from above the lake.

A fish and game pollution expert was expected early this week to spend some time studying the situation, but a summary survey showed that most of the oil has been confined to a comparatively small area and that only a few fish may be lost.

Responsibility for the mishap has not been determined, although an investigation is being made, Spillner said.

## NEW SNOW VEHICLE FOR LOCAL WARDEN

Illegal fishermen who have been having a hey-day in the hard to reach back country are in for a surprise.

The board of supervisors at their last meeting authorized an expenditure of some \$1,400 to purchase a snow-traveler for the Truckee game warden, Charles Spillner, who will use the over-the-snow vehicle to patrol otherwise inaccessible areas.

The new equipment will also be available to the sheriff's department for rescue an other such duties.

## DONNER DOINGS

By VIRGINIA O'BEAR

I still say there is never a dull moment at Donner Lake. There is always something happening and this week all of us had to find other means of obtaining drinking water. The greatest concern at the moment is whether or not the diesel fuel will kill the fish at Donner Lake. Looks like we won't know until the ice melts and reports are that it is three feet deep. News travels fast and thanks to Dick Walker and Lillian Garr, many people were warned against drinking the water. I tried to call Donner residents too, but many had been warned already. Even though the water can be used for adults and not children for a week, I think I'll boil it anyway.

Sunday around noon, Fire Chief Hap Warnke, Assistant Fire Chief's Dr. Affeldt and Dick Walker along with Chuck Baker, pumped some of the diesel fuel from the water out on the ice of Donner Lake and set fire to it. They felt they really got rid of a lot of it and by the looks of all the black smoke around Donner Lake Lodge, I believe they did. The procedure drew crowds from all over and many were busy snapping pictures of the unusual operation which might prevent the

loss of many fish hanging around where the stream runs into the lake.

Several Boy Scouts from Troop 132 of Santa Rosa helped the Donner Lake Utility Company when they announced they desperately needed help in digging a pipe line for the new water line in order to get fresh water. The boys gave up some of their toboggan time to do their good deed for the day and afterwards rejoined the group about a dollar and a half richer for only digging about 20 minutes. This troop comes up once a year to our snow country and have projects during the year to pay for the trip. Dr. Maurice Carline can well be proud of his group.

Sunday we decided to take a trip up the summit and see "Frankly, frantic and frazzled Fran"! You know what? She doesn't look that way at all, so if you don't want to see the sparks fly and her eyes snap... don't mention ANYTHING about any kind of a freeway. All joking aside though, if anyone should try to change the name of Donner Lake to something else... the old sparks would fly around here, but good!

The Auxiliary of the Donner Lake Volunteer Fire Department met at the Donner Lake Coffee Shop last Thursday night for a delicious Swiss steak dinner. Hostesses Ozella Slate and Bess Reid had the tables beautifully decorated in the St. Patrick's theme. It was a busy night after business got under way. The ladies will sponsor the Miss Donner Lake contest again this year but everything will be different. Rules and regulations will be announced later with particulars on when and where. The committee working on the Miss Donner Lake Contest will be Maybelle Vahey, Charlotte Harris, Bess Reid, Jean Walker, Jerie Bonano, Ozella Slate, Marcella Corro and Virginia O'Beare. This contest will be the biggest and best yet with prominent out of town people to be the judges this year using a point system for poise, personality, the ability to meet people and last but not least... beauty of face and figure. More details later, girls. The next of ficers meeting will be at the home of Ozella Slate on April 16, and hostesses for the next meeting on April 19, will be Maybelle Vahey, Jo Ann Affeldt and Claudia St. Claire. Place to be announced later.

The Donner firemen are meeting again this Thursday evening at the fire house for another regular meeting. When they meet to talk over the skit they are putting on for the Fire-ettes show April 27 and 28... I wish I could be a little mouse and find out what they are doing 'cause I hear it is a riot and would probably steal the whole show. Well, I'm curious.

Let's go break up some ice on Donner so we can go fishing March 31.

## BOORSHAIN SKEAKS AT TAHOE ROTARY

TAHOE CITY—Steve Boorshain, professor at Sierra College, speaking on world affairs at a dinner meeting at Tahoe Inn, told Rotarians and guests that our way of democracy will never be won with guns and bombs but that we can retain our way of life on the belief in the Bible and church.

The professor referred to ancient and later day rulers of governments who banished religion and brought only depression to their people during their rule. He stressed the need that every American read the Constitution of the United States and preach democracy through the concept of the teachings of Christ and he advocated the teaching of constitution and our form of government as compared to communism or we will lose the battle before we are aware of it.

Vice President Marshall Ruhlala presided. Herb Clegg introduced the speaker. Bill Vernon supplied Rotary information.

### TO IMPROVE YOUR WATER SYSTEM

The directors of the Truckee Public Utility District—ever on the alert to improve service to you—are currently developing plans to improve the water system.

Among the first projects, one which is fully planned and ready to let for contract as soon as snow conditions permit, will be integrating the wells so that service in all parts of the district will be good and equal.

A line will be installed from the Lewis well in West Truckee ultimately connecting with the present system, affording more pure, fresh water to the district and providing better fire protection.

This means crossing the freeway and connecting with the present system west of the Meadow Park community. This will entail an expenditure of some \$10,000 but will result in a vastly improved service.

Other improvements are planned and will be started just as soon as possible.

## LOSS AT SQUAW IS REPORTED BY STATE

A joint legislative audit committee said the state lost \$902,904 at Squaw Valley in its first 21 months of operation as a state park.

In a report, the committee noted that:

Income from concessionaires at the Sierra recreation area totaled \$133,372 during a 21-month period when combined expenditures reached \$1,036,276.

During the period ending December 31, 1961, there was never any audit of concessionaires' books to see if the state got its fair share of gross receipts. The department of finance apparently was asked only recently to make such an audit.

FIREMEN'S BALL HIGHLIGHTS: A record crowd attended the St. Patrick's night affair sponsored by the Tahoe City Volunteer Fire Department. Many well-known Irishmen attended the big social event of the year, including Charlie O'Cross, Bill Connors, Tim Sullivan, Marshall O'Leary, Rukhala, Pat O'Grady and Gus O'Ghehert. The weariness of the green was sparklingly evident in the hairdos of such lovelies as Glenn Meixner and Dell Tilton. . . .

That's all.

## FOUR BOYS HELD AS HOMES ARE WRECKED

CRYSTAL BAY — Four young boys were apprehended during the weekend after they are alleged to have virtually destroyed all the furnishings in three Crystal Bay residences owned by James L. Stack, brother of movie and television star, Robert Stack of Hollywood. William Driscoll, Washoe County

sheriff's investigator, said the loss will run into thousands of dollars. The suspects range in ages from 12 to 14 and could give no reason for the action. All had been in previous trouble, officers said.

A slingshot, left at the scene, led to the arrest of the suspects.

## Kitts Announces For Assessor Post

Charles R. Kitts, county assessor for the past six years, announced this week that he will be a candidate to succeed himself at the June 5 primary election.

In one of the most sensitive positions in county government, that of dealing directly with the people in a field that affects finances, it is axiomatic that the record of performance in office would be the most important element of a candidate for reelection.

C. R. KITTs

That is the position taken by Kitts in making his announcement. What has been done for the best interests of the county, plus a willingness to adhere to that goal despite delays and disappointments, counts more in a final summing up than personal activities and achievements. And yet the incumbent assessor in the time he has not placed with his office, is one of the more active and interested citizens on the county scene.

Since 1957 Assessor Kitts has reduced the average ratio of assessment to total value from 31 per cent to 23.9 per cent in 1961, well within the tolerance set by the state board of equalization. This gave the county a favorable rating among the 58 counties of the state. In the same period the local roll moved upward from \$23,190,531 in 1956 to \$28,401,220 in 1961. Property owners can read tax savings in these two developments.

More recently Assessor Kitts has been instrumental in procurement of an approved cadastral map and parcel numbering system for simplification and efficient handling of the county's accelerated development. This changeover is dated for July 1, 1962.

## Ahearn Seeks To Retain Position

ALBERT J. (CHICK) AHEARN

Albert J. (Chick) Ahearn, Nevada County's public administrator, last week filed his candidacy for reelection at the June 5 primaries.

In announcing his bid for reelection Ahearn said, "I learned more about Nevada County, met more fine people and actually had the finest time of my life in my first candidacy for the office of Public Administrator." He stated that he is looking forward to another coverage of the county's territory this year.

During his four year term, which he has conducted in an efficient and diligent manner, Administrator Ahearn became intensely interested in the California Public Administrators' Association describing it as "an excellent classroom of education in my attempts to do a better job for my county." Enrolling in the Association immediately after his election he had voice in proceedings of the group, served committee appointments and joined in constructive legislation phases.

'Chick' Ahearn, long-time Grass Valley resident, is widely and well known throughout the domain he serves. He was connected with local business for many years, 18 of which were in operation of his own shoe repair shop. He makes his home with his wife Gertrude at 517 Richardson Street, Grass Valley.

Meetings of instruction will be held and Bible studies conducted in various homes and climaxed with a public address to be delivered by Franck Sunday afternoon. The talk will be one of vital interest and concern to all and is entitled: "Is This the World's Last Generation?" Scriptural enlightenment will be given on such questions as, "what does the future hold?" and "will nuclear weapons wipe out the human race?"
